UNIVERSITY HEALTH CENTER

Collegiate Gender Affirming Care Listserv

Hosted by the University of Maryland Health Center, this private listserv is designed to provide a safe and welcoming forum for clinicians to share experiences and gather information as we strive for the highest quality health care for our transgender and gender diverse students.

- Share clinical conundrums, hear the "pearls" and experiences that have worked for others in similar situations
- Share important research or announce a research study you are conducting
- Announce position vacancies at your universities

We are eager to have you participate with us!

Contact Penny Jacobs at gac@umd.edu to request admission to the listserv.

What we need to know:

Name and contact information including email address, and University affiliation.
Educational background and role in the provision of Transgender and Gender Diverse care at your University
How many years you've been working with gender diverse students.

You will receive the CGAC Listserv Terms & Agreement to e-sign, return it for admission to the Listserv group.
